There is no dearth of fake patriotism in the world to camouflage one's weakness or failure in administration and planning. It rather becomes an instrument in the hands of dictators and selfish rulers to keep their position safe. One can hear the slogans of Patriotism on both the sides of the line of demarcation in the Indian sub-continent. When there is satisfaction among the masses there slogans would be raised 'danger is lurking on the borders', 'the enemy is making preparations to attack one country'. This is not patriotism but perverse thinking for selfish motives. Patriotism does not require a whip to rouse the sentiments of the people- if it is true Patriotism. The Unity achieved during war maybe a result of apprehension of slavery, not necessarily true emotion generated by Patriotism. It is in the blood of people to mould their life according to the needs of the motherland. It is not expedient to create circumstances benefiting one's own interests. It is rather regrettable that Patriotism is a greatest casualty in almost all the fields in our country. Political expediency and selfish motives have become Supreme, to the extent that even to talk of Patriotism is labelled as puerile or reactionary. Let us take inspiration from the young girl who wept and cried bitterly for she could not offer flowers on the war memorial in London, for none of her forefathers had laid his life for the cause of the nation. Let us inculcate this novel spirit among the people if we have to bring back the glory that was India.
